## Mississippi 2022

### Investment in State's Cooperative Programs

Program	FY 2021 Final
Community Forestry and Open Space	\$0
Cooperative Lands - Forest Health Management	\$409,587
Forest Legacy	\$35,000
Forest Stewardship	\$220,078
Landscape Scale Restoration	\$219,795
State Fire Assistance	\$1,291,309
Urban and Community Forestry	\$298,197
Volunteer Fire Assistance	\$311,128
<b>Total</b>	<b>\$2,785,094</b>

NOTE: This funding is for all entities within the state, not just the State Forester's office.

### Program Goals

- The cooperative programs are administered and implemented through a partnership between the State of Mississippi, the USDA Forest Service and many other private and government entities. These programs promote the health and productivity of forestlands and rural economies. Emphasis is on forest sustainability and the production of commodity and amenity values such as wildlife, water quality, and environmental services.

### Key Issues

- There is a need to develop sustainable urban forestry programs in Mississippi communities and to educate the public on how trees can conserve energy.
- The Mississippi Forestry Commission (MFC) is striving to expand its firefighting capacity by providing Volunteer Fire Departments (VFDs) with grant funding for wildland firefighting equipment. We also provide VFDs with equipment acquired through the Federal Excess Personal Property (FEPP) program and the Firefighter Property Program (FFP).

## Program Highlights

### **Cooperative Fire Protection**

State Fire Assistance provides funding to support firefighting resources throughout Mississippi. The Federal Excess Personal Property Program and the Firefighter Property Program allow us to acquire and place fire equipment in rural communities statewide. In FY21, these programs issued 80 pieces of wildland firefighting equipment, including vehicles, with an estimated value of \$3.65 million. 51 Volunteer Fire Assistance grants, with a total value of \$226,917, were also awarded to Mississippi's Volunteer Fire Departments.

### **Forest Health Protection**

The MFC provides forest pest detection, evaluation, and control recommendations on private, urban, and non-federal public forestland in Mississippi. The MFC continued to partner with the U.S. Forest Service to administer a Southern Pine Beetle Prevention Program, which aimed to teach private forest landowners the benefits of thinning to reduce the risk of southern pine beetle hazards. At the end of FY21, southern pine beetle activity decreased on National Forest land in Mississippi. While the MFC has active detection and control programs for kudzu and cogongrass, invasive plants continue to impact Mississippi's forest ecosystems. In FY21, the MFC's Cogongrass program assisted 16 landowners. The program treated 140 cogongrass spots comprised of 62 acres.

### **Forest Stewardship**

The MFC continues to promote natural resource planning on private forestland. In FY21, 108,476 acres were under forest management plans.

### **Landowner Assistance**

The Mississippi Forestry Commission offers a variety of services, programs, and resources to private forest landowners. The Forest Resource Development Program distributed \$1.63 million in cost-share funding to private forest landowners and 80,580 acres were regenerated or improved in FY21.

### **Urban and Community Forestry**

The MFC provides assistance and training to urban areas in developing community forestry programs. The MFC, in partnership with the U.S. Forest Service, is able to aid in the development of long-term, self-sustaining urban and community forestry programs through the Urban and Community Forestry Challenge Grant Program. Financial assistance grants provided in FY21 totaled \$68,610.
